**Subject:** New Mayor's Requirements

Hi Beverley,

As briefly discussed, the Mayor would like the following:

1) The current iphone (newest model) as a matter of urgency. The cost of calls is to be covered by the council as opposed to the usual allowance deductions arrangement.

**Importance:** High

Dean,

Just to confirm, you will see from the e-mail trail below, that we have requested that a new iphone be ordered for Mayor Rahman. This is to have a new phone number assigned to it. This is being procured by ICT, under the Council's contract and they know that we need it asap. All costs for this phone will be charged to the Mayor's cost code.

You will see from the e-mail below, that ICT have reminded us that as this is a council device and connected to the systems, they will be applying a PIN (for password protection) and also the ability to remotely wipe the data, in the event it is lost. This is the council standard, and they wanted to ensure that we were aware of this.

With regards to Mayor Rahman's existing blackberry, can you please check and determine if this is a Council issued blackberry. If it is and if it malfunctioning, we need to get it back to get that resolved.

Additionally, I understand from Lynne, that Mayor Rahman also has the Democratic Services 'pool phone'. I think this is a basic nokia phone. We would be grateful to have that returned, as soon as convenient - as we do have need for it in the section.

I would be most grateful for your assistance in determining where we are at with blackberry / phones, for Mayor Rahman. The above details what the Council is suggesting that he has been provided with, however, could you please confirm this with the Mayor (when there is an opportunity). We can then discuss things and determine the best way forward to ensure his needs are being met.

Many thanks.

Beverley

**Importance:** High

Hi Paul,

Having just spoken to Beverley McKenzie (cc-ed), please go ahead with ordering an iPhone 4, 32GB, against the cost code below. The Mayor is happy to have a brand new number, and is aware that the phone will be subject to a remote wipe if it is lost, and will be PIN-protected in the same way as a BlackBerry. Beverley is trying to track his old BB down, as it may have been handed in and re-assigned already.

**Subject:** iphone

Dean,

I just heard from ICT and they have been advised that the deliver of the iphone will likely be one week, as there is presently none in stock.

Sorry about that - but we are trying to get it asap (albeit delayed now!).

Hi Dean,

Just to update you.

Again, Democratic Services has had to step in and Bennie is going to Covent Garden in the morning to get the Mayor's iphone from the apple store on her way to work.

I have also got him a laptop that will be brought over to him tomorrow and the iphone will be synchronised with that.

I am off now, so anything else, let me know in the morning.
